

# ✈️ What Is the Cheapest Day to Fly on Delta Airlines?

If you're planning your next trip and hoping to save money, knowing the **cheapest day to fly on Delta Airlines** can make all the difference. While flight prices change constantly, Delta's fare patterns follow certain trends that can help you find the lowest ticket prices.

With a little flexibility and smart timing, you can easily book cheaper Delta flights without sacrificing comfort or convenience.

## 💡 The Short Answer

The **cheapest days to fly on Delta Airlines are Tuesday, Wednesday, and Saturday.**

These days usually have lower ticket prices because fewer people travel during the middle of the week or on Saturdays. In contrast, Friday, Sunday, and Monday tend to be the most expensive travel days due to higher demand from business and leisure travelers.

## Why Tuesday, Wednesday, and Saturday Are Cheapest

Airline pricing, including Delta's, is driven largely by demand. Here's why those days typically offer better deals:

### 1. Lower Midweek Demand

Most business trips happen between Monday and Thursday, and vacation travelers prefer weekend departures. That leaves Tuesday and Wednesday with fewer passengers — so Delta often reduces fares to fill more seats.

### 2. Saturday Sweet Spot

Many travelers don't like flying on Saturdays because it interrupts the weekend. That lower demand often makes Saturday a hidden gem for cheaper fares.

### 3. Airline Fare Adjustments

Airlines frequently update or match fares early in the week (usually Monday night or Tuesday morning). This means Tuesday and Wednesday are the best times to spot newly released lower prices.

## When to Book for the Best Price

The day you **book** your flight matters almost as much as the day you **fly**.

- The best time to book a Delta flight is usually **Tuesday or Wednesday**, when new deals appear.
- For domestic travel, aim to book **1–3 months in advance**.

- For international travel, plan **2–6 months ahead** to secure the best fares.

Avoid booking on weekends, when more travelers are online shopping for flights — this often causes prices to rise slightly.

### **Example: Price Differences by Day**

Here's how airfare pricing often looks for the same Delta route (for example, from Atlanta to Los Angeles):

<b>Departure Day</b>	<b>Average Price (One-Way)</b>
Monday	\$230
Tuesday	\$165
Wednesday	\$170
Friday	\$240
Saturday	\$180
Sunday	\$250

While prices vary based on season and destination, you can see that Tuesday, Wednesday, and Saturday are often \$50–\$80 cheaper than weekend travel days.

### **Other Factors That Affect Price**

Even though midweek and Saturday are usually cheapest, a few other factors can influence your Delta ticket price:

1. **Route and Distance** – Some destinations simply cost more because of distance or limited competition.
  2. **Season and Holiday Demand** – Summer, holidays, and school breaks always push prices higher.
  3. **Flight Time** – Early morning or late-night flights often cost less than midday options.
  4. **Advance Booking** – The closer you get to your departure date, the more prices tend to climb.
  5. **Fare Class** – Basic Economy fares are the lowest, while Main Cabin and Comfort+ cost more but offer flexibility and upgrades.

### **Tips to Find the Cheapest Delta Flights**

Even if your travel dates aren't flexible, there are ways to save more on Delta flights. Try these simple tricks:

1. **Use Flexible Date Search** – Look at Delta's full month view to spot the cheapest days to fly.
2. **Fly Early or Late** – Early morning or overnight flights often have lower fares.

3. **Join SkyMiles** – Earn miles for each trip, which can later be redeemed for free or discounted tickets.
4. **Book One-Way Segments** – Sometimes booking two one-way tickets instead of round-trip saves money.
5. **Travel During Shoulder Seasons** – Spring and fall usually offer the best deals.
6. **Set Fare Alerts** – Monitor prices for your route and book when you see a drop.

Combining these steps with midweek travel days can lead to major savings.

## Fly Smart With Fare Options

Delta offers multiple fare types — and knowing which to choose can help you stay within budget:

- **Basic Economy:** Cheapest but with limited flexibility (no seat selection or changes).
- **Main Cabin:** Standard fare with more flexibility and earning potential.
- **Comfort+ and First Class:** More expensive but great for upgrades using SkyMiles.

If saving money is your top priority, **Basic Economy** paired with midweek travel is usually the most budget-friendly option.

## Traveling During Off-Peak Times

To get even cheaper fares, plan your trips around **off-peak travel seasons**. Prices drop when fewer people are flying.

Some examples of off-peak times:

- Mid-January to early March
- Late April to early June
- September through early November

Flying during these windows on a Tuesday, Wednesday, or Saturday can lead to some of the lowest Delta ticket prices of the year.

---

## Example of Smart Booking

Let's say you're planning a round trip from New York to Miami.

- **Flying Friday to Sunday:** \$420 round-trip
- **Flying Tuesday to Saturday:** \$280 round-trip

Just by shifting your travel days, you save about **\$140** — with the same route and airline. Flexibility really pays off.
