Introduction
The College of Wooster announces the search for its next Vice President for Enrollment Management and invites nominations for and applications from exceptional candidates to lead enrollment efforts for one of America’s most distinguished residential liberal arts colleges.
Wooster should be not only a place of all studies: it should be a place of studies for all ... The essential test of citizenship in the commonwealth of science and letters should be character, mental and moral quality, and attainment, not condition, race, or sex.”

–Willis Lord, founding president of Wooster at his inaugural address in 1870

**History, Mission, Vision and Values**

Founded by Presbyterians in 1866, it opened its doors as the University of Wooster on September 8, 1870, with a faculty of five and a student body of 30 men and four women. By 1915, the University had several graduate divisions, including a medical school. Ultimately, the board of trustees and a majority of the faculty voted against further expansion and in favor of closing down the existing graduate programs, in order to focus solely on undergraduate education in the liberal arts and sciences. With that sharpening of strategic focus came a new name, The College of Wooster, and an educational program framed in a residential setting where students learn in many venues and in many ways. In 1969, the Presbyterian Synod of Ohio relinquished its ownership of the College, and Wooster became an independent, private liberal arts college.

**Mission**

The College of Wooster is a community of “Independent Minds, Working Together” to prepare students to become leaders of character and influence in an interdependent global community. We engage motivated students in a rigorous and dynamic liberal education. Mentored by a faculty nationally recognized for excellence in teaching, Wooster graduates are creative and independent thinkers with exceptional abilities to ask important questions, research complex issues, solve problems, and communicate new knowledge and insight.

**Vision**

Wooster’s collective endeavor is to prosper as a distinguished independent liberal arts college, to thrive as a vigorous intellectual community, and to create a reputation that reflects our achievements. The College seeks to be a leader in liberal learning, building on its tradition of graduating independent thinkers who are well prepared to seek solutions to significant problems, to create and communicate new knowledge and insight, and to make significant contributions to a complex and interdependent world.

**Core Values**

These are the values that govern the College community’s shared pursuits, the ideas that it holds true:

- Education in the Liberal Arts Tradition
- A Focus on Research and Collaboration
- A Community of Learners
- Independence of Thought
- Social and Intellectual Responsibility
- Diversity and Inclusivity

- **26,560** ALUMNI
The College of Wooster is governed by a voluntary Board of Trustees that consists of 45 member seats, all of whom are elected by the full Board and are subject to term limits. Thirty-six members are standard trustees (eligible for 12 years of continuous service), two are GOLD trustees (Graduates of the Last Decade and eligible for one three-year term), and six are Alumni Trustees (nominated by the Alumni Board and eligible to serve two three-year terms). The President of the College is also a member of the Board during their term of office. They are responsible for the mission and the financial well-being of the institution.

The Board’s current roster consists of 38 trustees of whom 16 are female and 22 are male. The Board has set a goal for the composition of the Board to reflect that of the student body by 2025 with a 50/50 male-female gender balance and no more than 60 percent White-identified trustees. Diversity targets prioritize recruitment of five types of diversity: religion other than Christian, First-Generation student, LGBTQ, Latinx, and age younger than 50 years. Desired skill sets (re-evaluated annually), professional experience, historical engagement with the College, and philanthropic capacity are criteria used to identify and cultivate candidates for trusteeship.

The Board holds three regular meetings on campus during the academic year: one in October, one in late February/early March, and one in late May/early June. Meetings are held Thursday–Saturday and consist of meetings of the Board’s standing committees, a strategic working session of the full Board, and a formal business meeting of the Board on Saturday mornings. Spouses/partners of trustees are also invited to participate in their own designated programs/meetings as well as attend all dinners and social gatherings. All standing committees, task forces, ad hoc groups, and the full Board also meet virtually throughout the academic year as needed.

The College employs 179 full-time faculty who serve as teachers, researchers, and mentors to its diverse student body. Faculty and administration operate in a shared governance environment, and the faculty-to-student ratio is 11 to 1. Every senior enjoys a one-to-one relationship with a faculty mentor throughout their journey of Independent Study. The faculty as a whole is in charge of the curriculum and those elected to the Educational Policy Committee (EPC) review proposals for new majors, Pathways, course designations, and position requests. Once faculty positions are approved, the Office of Academic Affairs coordinates with faculty in each department and program to hire colleagues.
who bring exciting research agendas and a desire to work closely with its students. The Teaching Staff and Tenure (TS&T) Committee is in charge of decisions related to tenure and promotion. The Committee on Conference With Trustees (CWT) meets regularly with the Board and serves as a direct means of communication between Faculty and Trustees.

Wooster employs over 300 talented and dedicated staff to support the teaching mission of the College. Staff, faculty, and student representatives also serve on most governance committees and regularly meet with trustees in formal and informal settings.

The College has a Staff Committee, which is elected by hourly and salaried staff and serves as an advisory body between all staff members and other College constituencies. In addition to providing a forum and voice for staff on all matters pertinent to campus operations, Staff Committee works to foster a spirit of unity, pride, and cooperation among staff and ensures staff representation on major College committees, taskforces, and initiatives.

Additionally, Wooster has a Strategic Planning and Priorities Advisory Committee (SPPAC) focused on ensuring support for the strategic priorities of the College. Demonstrating a strong commitment to shared governance across various constituencies, the College practices strategic planning as an on-going process, rather than an every five to 10 years event.

SPPAC, made up of faculty and staff, is integral to the success of this process.
Three objectives guide the work of the President, the Board of Trustees, SPPAC, and other constituencies:

- To fulfill Wooster’s educational purpose with distinction.
- To strengthen the foundations of the College.
- To sustain the College’s momentum by developing a campus-wide culture of planning that influences all decision-making, resource allocation, and assessment efforts.

The Vice President of Enrollment Management reports to the President and serves on the President’s Cabinet. They will join a campus community that includes passionate and expert faculty, a dedicated and talented staff, and engaged students. Other participants in the cabinet include:

- Provost
- Vice President for Advancement
- Vice President for Equity, Inclusion, and Diversity
- Vice President for Finance and Business, Treasurer
- Vice President of Human Resources
- Vice President of Marketing and Communications
- Vice President for Student Affairs and Dean of Students
- Secretary of the College and Director of Administration
- Dean for Curriculum and Academic Engagement
- Dean for Faculty Development
- Director of Institutional Research
- Director of Athletics and Physical Education
- Senior Director of Information Technology
Wooster and the Northeast Ohio Region

The City of Wooster, a vibrant Main Street community of roughly 30,000, is located approximately 50 miles from Cleveland and 35 miles from Akron and boasts a strong, diversified economy, two major hospital systems, a downtown full of great restaurants and shops, and easy access to outdoor recreation opportunities. It’s a short drive to Ohio State’s Secrest Arboretum, the mountain biking trails at Vulture’s Knob, and the 1,000-acre Mohican State Park.

Wooster ranks in the Top 20 of 543 micropolitan areas in the U.S. by Policom—a measure of Economic Strength that looks at the long-term tendency for an area to consistently grow in both size and quality. Money Magazine ranked Wooster #37 out of 100 in its 2017 Best Places to Live.

Wooster is also home to the Ohio Agricultural Research and Development Center (OARDC), the research institution of The Ohio State University College of Food, Agricultural, and Environmental Sciences. The College of Wooster partners with OARDC in a variety of ways, including as part of Wooster Science Café, a long-standing public science initiative held monthly throughout the academic year to provide a forum for dialog between the public and scientists about contemporary topics.

A number of other longstanding partnerships connect the campus and its people to the city of Wooster and the greater Northeast Ohio region, whether it be the nearly 500 student teachers placed at K-12 institutions throughout the region each year, the award-winning Wooster Chorus singing alongside the Cleveland Orchestra Chorus in Cleveland’s historic Severance Hall, students learning beside residents at Indian River Juvenile Correctional Facility as part of Professor of Sociology Anne Nurse’s Deviance and Criminology course, a variety of funded research fellowships, internships, and consultant projects, or any number of community service projects.

Wooster is a Top 20 Micropolitan City

Population of Wooster: 30,000
Located within one-hour drive of Cleveland and Akron and 90 minutes from Columbus.
An Education
Wrapped in Value
Since 2002, U.S. News & World Report has asked college presidents and deans which colleges provide the best undergraduate research opportunities and senior capstone experiences. Only two have made both lists every year: Wooster and Princeton.

Since 2002, U.S. News & World Report has asked college presidents and deans which colleges provide the best undergraduate research opportunities and senior capstone experiences. Only two have made both lists every year: Wooster and Princeton.

“The College of Wooster is nationally recognized for its commitment to Independent Study and its international focus.”

In his best-selling book, The Price You Pay for College, New York Times columnist Ron Lieber writes about value factors that are “worth paying for” in a college. Examples include great teaching and mentoring, small classes, standout career centers, and a diverse campus community. He dedicates an entire chapter to one school that best represents these value aspects—Wooster!

“HOW WOOSTER PUTS IT ALL TOGETHER”

Wooster earned distinction from The Princeton Review as a “Best Value College,” and ranks 14th nationally for Internships.

Wooster ranks #2 in Most Accessible Professors.

Loren Pope, founder of Colleges That Change Lives, called The College of Wooster “my original best-kept secret in higher education ... I can testify that there is no better college in the country.”

Loren Pope, founder of Colleges That Change Lives, called The College of Wooster “my original best-kept secret in higher education ... I can testify that there is no better college in the country.”

What Lieber refers to in The Price You Pay for College as an “Academic Woodstock!”

What Lieber refers to in The Price You Pay for College as an “Academic Woodstock!”
Generations of Wooster alumni have continued the tradition of removing their personal Wooster brick upon graduation.

Wooster’s campus has more trees than students and holds an official Tree Campus USA designation. The College’s faculty also love to hold class or one-on-one mentoring meetings in the Oak Grove when weather permits.

Many first-time visitors to the Wooster campus are quite taken by the sight of black squirrels scurrying around the grounds, and some even consider the cute-looking critters an unofficial mascot of sorts.

Bagpipers, and their signature MacLeod tartan kilts, have provided a unique flare to Wooster’s campus for decades. On gamedays, the College’s pipe band leads the Fighting Scots football team onto the field, creating a defining Wooster moment!

So, what’s with the Tootsie Roll? When Wooster seniors hand in their Independent Study (I.S.) senior capstone projects on I.S. Monday, they’re handed back a black-and-gold button that proclaims, “I Did It,” plus a Tootsie Roll. (If you know any Wooster alumni, ask whether they still have theirs!)
I can’t pick just one professor or advisor—the collective support I’ve received at Wooster has helped mold me into who I am today. Being part of such a tight knit community really helped me get comfortable asking questions of my professors to better engage with the material. There’s not a single moment where I felt like there weren’t at least a few people rooting for me.”

—Marcel Elkouri ’21
Doctoral Candidate in Neuroscience, University of Michigan’s Program in Biomedical Sciences

In the largest-ever survey of 30,000 college graduates, Gallup found that having a mentor in college and working on a long-term project were two of the most powerful factors linked to having “great jobs and great lives” after graduation.

I.S. isn’t as scary as people make it out to be. By this point in your academic career, you are more than well equipped to handle I.S. Everything you’ve learned, academically and non-academically, shapes and prepares you for the process.”

—Katie Spence ’23
Biology and Theatre and Dance
A Wooster education provides each student a great springboard to life and work.

Wooster’s value
Wooster delivers an experience that is both globally engaged and locally grounded, rich in opportunities for collaboration, civic engagement, professional exploration, and leadership.

Mentored Research
Known as America’s Premier College for Mentored Undergraduate Research, every student works one-on-one with a faculty mentor for one year to conceive, organize, and complete a significant piece of original research, scholarship, or creative expression. This Independent Study project, known to generations simply as I.S., is the centerpiece of Wooster’s commitment to mentored research and a badge of distinction for all graduates as they head into the world of work. Participating in mentored research helps develop independent judgment, creativity, project-management and time-management skills, self-confidence, and strong written and oral communication skills: precisely the abilities prized by employers and graduate schools alike.

Recent graduates
Work at these organizations:

Academic Excellence
World Class Educators and Scholars

Wooster’s faculty include 179 world class educators whose research informs and enriches the student experience in the classroom, the lab, the field, and above all in the one-on-one mentoring of senior Independent Study. Faculty oversee more than 50 academic programs in the sciences, humanities, social sciences, and the arts, including new interdisciplinary Pathways.

TEACHING INNOVATIONS

Wooster Faculty are well-known for their pedagogical ingenuity. U.S. News and World Report ranked Wooster 14th in the nation for “Undergraduate research/creative projects” and The Princeton Review ranked Wooster 2nd for “Most Accessible Professors” and 11th for “Making an Impact.” Faculty incorporate innovative approaches within and far beyond the classroom, often drawing students into experiential learning opportunities.

Investments of the Jenny Investment Club at The College of Wooster recently reached more than $12 million and ranked in the top 20 college investment clubs in the nation.

Real-world course experience in Urban Studio prompts new senior research avenues

Professor Noriega’s play CAGED honored by invitation to Kennedy Center American College Theatre Festival

SCHOLARSHIP THAT MAKES A DIFFERENCE

Wooster faculty’s scholarship is featured in top peer-reviewed, academic journals, and frequently picked up by popular news outlets, such as the New York Times, BBC, NPR, and Good Morning America. What is central to almost all of their work is that it makes a difference—both publicly and for Wooster’s students. Students have the opportunity to work directly with faculty from day one in First-Year Seminar, most pair with a faculty member for a Sophomore Research Assistantship or internship, and every student works on an undergraduate research project of creative endeavor alongside a faculty advisor during their Senior year.

Professor Olivia Navarro-Farr leads exploration of major Maya archaeological site

Professor Clayton pens essay for Time about owning climate anxiety

Statistical and data sciences professor uses structural equation modeling to show the importance of relationships in STEM degree persistence
n 2018 and 2019, Wooster faculty introduced five new interdisciplinary majors in environmental geoscience, environmental studies, education, global media and digital studies, and statistical and data sciences.

Amid the ongoing pandemic, the College in 2020 followed up with the introduction of new interdisciplinary Pathways programs, optional add-ons to students’ major course of study that bring together academic interests, hands-on experiences, and career exploration for credit. Wooster students can now choose from eight programs: Activism & Social Change, Data Exploration & Communication, Digital & Visual Storytelling, Entrepreneurship, Environmental Communication & Action, Global Impacts, Museum & Archival Studies, and Public Health.

Experiential Learning has expanded across the curriculum both as part of existing outlets such as APEX Fellowships and Applied Methods and Research Experience (AMRE), as well as new Pathways programs and individual departments working to identify and credential internships, volunteer work, jobs, research, off-campus study, and other applied experiences in new ways that more accurately reflect the outcomes of those endeavors.

Teams of faculty and staff across the College are currently engaged in planning for the implementation of team-based mentoring to help students recognize opportunities for collaboration early on in their academic careers as a way to bridge the gap between the already-successful mentoring ventures for first-year students and Wooster’s nationally recognized I.S. program.
### Areas of Study

W
d
Wooster offers Bachelor of Arts degrees in over 100 programs, providing the opportunity to combine interests by completing a double major or self-designing one. Students may alternatively choose among three different music degrees.

### Degree Programs: BA, BM, BME, BMT

Helping students dream, plan, and integrate their education with the world of work.

APEX is Wooster’s center for Advising, Planning, and Experiential Learning, the home of seven different offices. It’s where students will combine their plans for their four years as a student with their goals for life after graduation.

**Funded Experiences:**

- **APEX fellowships** fund summer internships and career exploration opportunities—from Atlanta and New York to Addis Ababa and Beijing—for scores of Wooster students each year.

- **Paid Internships:** Throughout the year, Wooster students gain on-the-job experience as paid interns on campus, in the community, or in various locations during summer and winter breaks. They also have the opportunity to apply for funding for internship experiences through APEX.

- **Applied Methods and Research Experience (AMRE)** is a paid, eight-week, summer program in which faculty advised student consulting teams partner with Fortune 500 companies, local businesses, and non-profits to solve real-world business challenges.

**Global Engagement**

Nearly 2/3 of each class has at least one off-campus experience in the U.S. or in one of 60+ countries during their time at Wooster, whether a year, semester, summer, spring, or winter break.

**Local Social Justice Internship**

The College has introduced a new locally focused in-house summer Social Justice Internship program in the local community, supported through APEX fellowships.
U.S., International Enrollment
Wooster has grown to be one of the most international campuses in Ohio. Currently, international students make up 14 percent of Wooster’s total enrollment and hail from 76 countries. U.S. students of color account for 24 percent of the student body.

The Class of 2027 arrived at The College of Wooster last August and immediately added to the richness and diversity of the College community. Made up of 452 first-year students, the class brought new energy to campus and represented a wide array of places, backgrounds, and accomplishments.

Members of the class hailed from 33 states and Washington, D.C., as well as 37 countries including international students, dual citizens, and global nomads. Students from Ohio made up 34% of the class, and 24% are first-generation college students. Of the new students who moved into the Wooster community, 13% were international students and 29% were U.S. students of color, contributing to Wooster’s diverse multicultural community. Countries represented, include those as far away as Zimbabwe, with South Korea, Ghana, Nepal, and India being the most highly represented. Twenty-one students transferred this past fall from other institutions.

Of those students from the United States, 30% of incoming Wooster students for the Class of 2027 were eligible for Pell grants. In an article published by The New York Times Magazine in early September 2023, Wooster was recognized as the top school in Ohio at No. 91 with the greatest economic diversity. A College-Access Index that lists the country’s most-selective universities ranked in order of economic diversity, the list includes the 286 most-selective colleges in the country as defined by Barron’s Profiles of American Colleges and other metrics. It is based on data from the first-year class of 2020-21 with the share of Pell-eligible students at 23% indicated for Wooster.

The academic talent of the College’s Class of 2027 echoes its diversity with an average GPA of 3.7. Students in the class expressed interest in a broad range of academic programs, with psychology, biology, and business economics noted as some of the top interests.
Wooster’s commitment to transparency is lauded by The New York Times

Wooster’s understands that families are often curious, and may be overwhelmed, when it comes to projecting college costs. Most colleges don’t make scholarship and financial aid offers until the winter or even spring of a student’s senior year. We think there’s a better way ... Wooster’s Early Aid Estimator. The information provided is evaluated by individuals—Wooster’s admissions and financial aid professionals—not an algorithm. Students receive a personalized projected aid award, including both institutional grants and scholarships, as well as funding from all government sources, even before applying for admission.

Read more about Wooster’s Early Aid Estimator. Backed by strong endowment performance (now valued at over $412 million), Wooster is proud to deliver average financial aid awards of over $50,000.

WOOSTER IS TEST-OPTIONAL!
The College of Wooster is test-optional, providing students the opportunity to present application material that accurately reflects their diverse academic talents and potential. Students can submit either the SAT or ACT if they feel their results best represent their academic potential.
Living, Learning, and Thriving Together
The world comes to Wooster

Wooster has intentionally brought the world to its doorstep. It’s central to the College’s mission and to the learning that happens there. Wooster wants students from small towns and big cities, from dozens of faiths, cultures, and perspectives – all bringing their experiences to the College’s community to enhance everyone’s overall experience.

I love the ability for students to connect across language barriers, different experiences, and so much more. The common goals of having a valuable education and creating long-lasting connections transcend many differences and hold a lot of us together.”

– Nina Miller ’25, Psychology

- 76 COUNTRIES
- 47 STATES

24/7 On-Campus Wellness Center

The Longbrake Student Wellness Center is a one-of-a-kind comprehensive health center for students enrolled on a full-time basis. The staff consists of physicians from the Cleveland Clinic Wooster, professional mental health counselors, a health education coordinator, certified athletic trainers, an office administrator, and registered nursing staff.
Alumni
500+ alumni volunteers supporting admissions, career planning, internships, and more.

44 alumni-hosted events around the globe celebrating I.S. Monday
Distinguished Alumni

Wooster alumni go on to achieve success in every aspect of society and in cities and towns across the globe. Here are just some Fighting Scots making a difference in this world.

Helen Murray Free ’45
Renowned chemist who co-developed the dip-and-read diabetes test, a revolutionary diagnostic test that uses a paper strip to detect glucose in urine

Don Kohn ’64
Former vice chair of the Federal Reserve Board of Governors and a senior fellow at the Brookings Institution

Megan Cooper ’95
An associate professor of rheumatology at Washington University and director of the clinical immunology program at the St. Louis Children’s Hospital, she researches genetic sequencing of COVID-19 patients

Max Lesko ’06
Served on the Biden Transition Team working on the Domestic COVID response before joining the United States Public Health Service Commissioned Corps as Chief of Staff in the Office of the Surgeon General

Chelsea Barnes ’07
A recipient of Energy News Network’s 40 under 40 awards for her clean energy work, she lobbied the Virginia Legislature for a grant to develop renewable energy on former coal-mined land

Dekila Chungyalpa ’98
During a fellowship with the World Wildlife Fund, she began working with faith leaders, being “asked by His Holiness the Karmapa, the head of the Karma Kagyu School of Tibetan Buddhism, to create a set of environmental guidelines for his monasteries and nunneries,” inspiring her to create and lead the Sacred Earth Initiative

Christabel Dadzie ’04
A senior social protection specialist for the Social Protection and Jobs Unit at the World Bank based in Ghana, she founded Ahaspora, an organization that “promotes brain gain by supporting people returning home [to Ghana].”

Lauren Hines ’09
Working for U.S. Citizenship and Immigration Services as a Spanish-speaking refugee officer, she interviews people fleeing their countries of origin, often speaking with people interdicted at sea by the U.S. Coast Guard who fear returning to their country
Job Summary & Qualifications
The Vice President for Enrollment Management is a key leadership position within the institution, with central responsibility for attracting students to fulfill Wooster’s mission as a liberal arts college, meet revenue goals, and present Wooster’s high-quality programs and exceptional outcomes to prospective students, parents, the higher education community, and the public.

As a member of Cabinet, the Vice President for Enrollment Management leads the College’s admissions and recruitment efforts and financial aid programs, and serves as a core member of retention efforts. This Vice President will develop and implement a strategic enrollment plan, leverage new technological capabilities to streamline enrollment operations, and collaborate with stakeholders to align enrollment goals with institutional priorities and support student success.
Essential Departmental Duties and Responsibilities:

- Demonstrates a commitment to diversity, equity, inclusion, and belonging through the development and implementation of a comprehensive enrollment strategic plan in support of the College’s overall strategic action plan to attract, recruit, and retain a diverse and qualified student body.

- Monitors the external landscape, including market trends, demographic data, and enrollment metrics to identify opportunities and challenges and adjust strategies accordingly.

- Develops and oversees recruitment initiatives, including outreach programs, admissions events, and partners with the VP of Marketing and Communications to develop marketing campaigns to attract prospective students.

- Collaborates with academic departments, athletics, student affairs, marketing, and other stakeholders to develop integrated strategies for student recruitment, retention, and success and communicates effectively.

- Partners with the Advancement team to share recruitment and retention strategies to alumni and donors to support philanthropic momentum.

- As a member of Cabinet, collaborates with senior leadership to align enrollment goals with institutional priorities and provides regular updates to the Board of Trustees.

- Utilizes technology and data analytics to streamline enrollment processes, enhance efficiency, and improve the overall student experience.

- Participates in institutional committees, task forces, and working groups to address issues related to enrollment management and student success.

- Oversees the administration of financial aid programs and scholarships, ensuring equitable distribution of financial resources to support student access and affordability, comply with federal and state regulations and institutional guidelines, and generate the College’s primary source of revenue.

- Provide leadership and direction to the Admissions and Financial Aid team, ensuring effective recruitment and selection processes that meet enrollment targets and uphold academic standards.

- Performs other duties as assigned.

Qualifications:

To perform this job successfully, an individual must be able to perform each essential duty satisfactorily. The requirements listed below are representative of the knowledge, skill, and/or ability required.

- A record of significant and progressively responsible experience in enrollment management, admissions, or related areas, with leadership experience appropriate to this role.

Knowledge, Skills, and Abilities:

- The successful candidate should possess an understanding of liberal arts colleges and have successful experience in higher education. Possess an understanding of student market trends, data analytics, and best-practice strategies for the recruitment and retention of an increasingly diverse student body. Deep understanding of demographic and higher education trends to build an innovative enrollment and retention strategy.

- Ability to understand and articulate the institution’s mission, vision, and values related to enrollment and student success.

- Demonstrated commitment to ethical behavior, honesty, and integrity in all aspects of enrollment management, including admissions, financial aid, and student recruitment.

- Ability to implement fair and equitable enrollment practices that promote diversity, equity, and inclusion, ensuring equal access and opportunities for all prospective students.
Applications & Nominations
Applications should consist of a substantial letter of interest, a resume, and a list of five professional references with full contact information and a note indicating the nature of your working relationship with each. No references will be contacted without the explicit permission of the candidate. Applications, nominations, and expressions of interest can be submitted electronically, and in confidence, to:

WoosterVPEM@academicsearch.org

The position is open until filled but only applications received by Friday, August 2, 2024, can be assured full consideration. The College is being assisted by Academic Search. Confidential discussions about this opportunity may be arranged by contacting consultants Ann Hasselmo and Chris Butler.
